Cumulative Contents

Information for Contributors vii

Regular papers

Calcium and reactive oxygen species as messengers in endotoxin action on adrenocortical cells
R. García, A. Enríquez de Salamanca and M.T. Portolés (Spain) 1

Quantitative reduction of type I adenylyl cyclase in human alcoholics
H. Sohma, E. Hashimoto, T. Shirasaka, R. Tsunematsu, H. Ozawa, K.W. Boissl, J. Böning, P. Riederer and T. Saito (Austria, Germany, Japan) 11

Acute oxidative stress modulates secretion and repetitive Ca^{2+} spiking in rat exocrine pancreas
J.H. Sweiry, I. Shibuya, N. Asada, K. Niwa, K. Doolabh, Y. Habara, T. Kanno and G.E. Mann (Japan, UK) 19

Involvement of lipids in ferriprotoporphyrin IX polymerization in malaria
C.D. Fitch, G. Cai, Y.-F. Chen and J.D. Shoemaker (USA) 31

Incorporation of exogenous lipids modulates insulin signaling in the hepatoma cell line, HepG2
E.J. Meuillet, V. Leray, P. Hubert, C. Leray and G. Cremel (France, USA) 38

Identification of a novel substitution in the constant region of a gene coding for an amyloidogenic κ_1 light chain
J. Wally, G. Kica, Y. Zhang, T. Ericsson, L.H. Connors, M.D. Benson, J.J. Liepnieks, J. Murray, M. Skinner and R.L. Comenzo (USA) 49

Examination of the metabolic status of rat air pouch inflammatory exudate by high field proton NMR spectroscopy
A. Claxson, M. Grootveld, C. Chander, J. Earl, P. Haycock, M. Mantle, S.R. Williams, C.J.L. Silwood and D.R. Blake (UK) 57

Catecholamines participate in the induction of ornithine decarboxylase gene expression in normal and hyperplastic mouse kidney
M. Dudkowska, M. Manteuffel-Cymborowska, W. Chmurzyńska and B. Grzelakowska-Sztabert (Poland) 71

Assay for reactive oxygen species-induced DNA damage: measurement of the formamido and thymine glycol lesions
A.E. Maccubbin, H.B. Patrzyc, N. Ersing, E.E. Budzinski, J.B. Dawidzik, J.C. Wallace, H. Iijima and H.C. Box (USA) 80

Effects of apolipoprotein E genotype on blood lipid composition and membrane platelet fluidity in Alzheimer's disease
M.A.S. Fernandes, M.T. Proença, A.J.A. Nogueira, L.M.V. Oliveira, B. Santiago, I. Santana and C.R. Oliveira (Portugal) 89

Clostridium perfringens β-toxin is sensitive to thiol-group modification but does not require a thiol group for lethal activity
M. Nagahama, A. Kihara, T. Miyawaki, M. Mukai, Y. Sakaguchi, S. Ochi and J. Sakurai (Japan) 97

Synthesis of adenine and guanine nucleotides at the 'inosinic branch point' in lymphocytes of leukemia patients
F. Carlucci, A. Tabucchi, R. Pagani and E. Marinello (Italy) 106

The mechanism of inhibition of β-oxidation by aspirin metabolites in skin fibroblasts from Reye's syndrome patients and controls
J.F.T. Glasgow, B. Middleton, R. Moore, A. Gray and J. Hill (UK) 115

Short sequence-paper

Molecular cloning and expression of a novel human cDNA related to the diazepam binding inhibitor
K. Suk, Y.-H. Kim, D.-Y. Hwang, S.-H. Ihm, H.J. Yoo and M.-S. Lee (South Korea) 126

Announcement 132

Information for Contributors vii

Regular papers

Blood sugar formation due to abnormally elevated gluconeogenesis: aberrant regulation in a parasitized insect, *Manduca sexta* Linnaeus
S.N. Thompson and D.L. Dahlman (USA) 133

In vitro and in vivo studies investigating possible antioxidant actions of nicotine: relevance to Parkinson's and Alzheimer's diseases
W. Linert, M.H. Bridge, M. Huber, K.B. Bjugstad, S. Grossman and G.W. Arendash (Austria, USA) 143

Kinetics of hemin distribution in plasma reveals its role in lipoprotein oxidation
Y.I. Miller and N. Shaklai (Israel) 153

Receptor/ligand interactions between *Cryptosporidium parvum* and the surface of the host cell
M.V. Nesterenko, K. Woods and S.J. Upton (USA) 165

Enhanced channelling of sulphate through a rapidly exchangeable sulphate pool in response to stimulated glycosaminoglycan synthesis in pancreatic epithelial cells
W.G. Hill, G.S. Harper, T. Rozaklis and J.J. Hopwood (Australia) 174

Inactivation and loss of antigenicity of esterase by sugars and a steroid
H. Yan and J.J. Harding (UK) 183

The effect of prolonged iron loading on the chemical form of iron oxide deposits in rat liver and spleen
W. Chua-anusorn, J. Webb, D.J. Macey, P. de la Motte Hall and T.G. St. Pierre (Australia) 191

Short sequence-paper

Cloning and expression of Der f 6, a serine protease allergen from the house dust mite, *Dermatophagoides farinae*
S. Kawamoto, Y. Mizuguchi, K. Morimoto, T. Aki, S. Shigeta, H. Yasueda, T. Wada, O. Suzuki, T. Jyo and K. Ono (Japan) 201

Information for Contributors vii

Regular papers

Increase of collagen synthesis and deposition in the arachnoid and the dura following subarachnoid hemorrhage in the rat
J. Sajanti, A.-S. Björkstrand, S. Finnilä, E. Heikkinen, J. Peltonen and K. Majamaa (Finland) 209

Expression of human inositol monophosphatase suppresses galactose toxicity in *Saccharomyces cerevisiae*: possible implications in galactosemia
D.V. Mehta, A. Kabir and P.J. Bhat (India) 217

In vivo assessment of microcystin-LR-induced hepatotoxicity in the rat using proton nuclear magnetic resonance (^{1}H-NMR) imaging
S.A. Sturgeon and R.A. Towner (Australia) 227

Characterization and purification of an outer membrane metalloproteinase from *Pseudomonas aeruginosa* with fibrinogenolytic activity
B. Fricke, O. Parchmann, K. Kruse, P. Rücknagel, A. Schierhorn and S. Menge (Germany) 236

Obese mice have higher insulin receptor levels in the hepatocyte cell nucleus following insulin stimulation in vivo with an oral glucose meal
N.A. Gletsu, C.J. Field and M.T. Clandinin (Canada) 251

Aerosolized endotoxin is immediately bound by pulmonary surfactant protein D in vivo
B.A.W.M. van Rozendaal, C.H.A. van de Lest, M. van Eijk, L.M.G. van Golde, W.F. Voorhout, H.P.M. van Helden and H.P. Haagsman (The Netherlands) 261

A novel mutation in the *CYBB* gene resulting in an unexpected pattern of exon skipping and chronic granulomatous disease
D. Noack, P.G. Heyworth, J.T. Curnutte, J. Rae and A.R. Cross (USA) 270

Superoxide dismutase and hydrogen peroxide cause rapid nitric oxide breakdown, peroxynitrite production and subsequent cell death
A.G. McBride, V. Borutaitė and G.C. Brown (UK) 275

Is gut the major source of proinflammatory cytokine release during polymicrobial sepsis?
D.J. Koo, M. Zhou, D. Jackman, W.G. Cioffi, K.I. Bland, I.H. Chaudry and P. Wang (USA) 289

Glycation of apolipoprotein E impairs its binding to heparin: identification of the major glycation site
V.V. Shuvaev, J. Fujii, Y. Kawasaki, H. Itoh, R. Hamaoka, A. Barbier, O. Ziegler, G. Siest and N. Taniguchi (France, Japan) 296
